Our program serves individuals diagnosed within the autism spectrum on a 56-acre ranch, providing an environment where they can truly explore their interests, strengths, gifts and talents. The driving philosophy for our program is to provide our consumers the luxury of choosing their work, choosing their recreation and engaging in activities that are fulfilling and meaningful for them, while preparing them for future employment. The days are highly structured as we manage more than 40 animals, a household and two classrooms. We provide a 1:3 staff to consumer ratio.
