Medication Safety Program Prescribed for Senior Community

Medications can help improve the quality of our lives and help us live longer, but they can also be dangerous if taken incorrectly. As many as 80% of patients make errors in taking their medicines. Mistakes like these can create serious problems, ranging from falls to worsening medical conditions and even death.

The good news is, more than 50 percent of medication-related problems can be prevented – and Independence at Home's C-MEDS program is here to help! Do you know older adults who:

-  *Would benefit from a comprehensive medication review?*
-  *Take five or more medications?*
-  *Cannot access their medications?*
-  *Need in-depth medication information?*

If you answered "yes" to any of these questions, the C-MEDS team can work with you and the older adult's physician to reduce their risk for medication problems.

C-MEDS is a *no-cost* program to assist older adults with medication issues. Let us help you to increase the health outcomes for older adults by improving the safety of their medication use.

Call **1-866-421-1964** to inquire about C-MEDS today!

Better Software.
Better Support.
Better Business.
